Wake Up, Sleeping Beauty Concept Design

Top right: Cherry blossoms photograph, 2023, that will be printed on sheer fabric with the script, "He loves me, he loves me not...." to create the bed scarves.

Below left: *Wake Up, Sleeping Beauty* reclaimed found Princess bed concept design, digitally altered manufacturer's photograph, 2024. The oil painting on panel will rest in the bedframe instead of the mattress. If the manufacturer cannot replace the five missing canopy parts, I will substitute found objects to support the theme and the structure.

Below right: First concept study for the oil painting component for *Wake Up, Sleeping Beauty*; watercolor pencils and white conte on toned paper, 3.8 x 7 inches (1/10th scale), copyright 2024
